- Every home should have one.

Sometimes even seemingly simple things can pose a problem. One common challenge faced by emergency responders on an all too frequent basis is inadequately or unmarked residence addresses. Help us save precious seconds off of our response time when you need us most. Reflective address markers have been shown to dramatically assist fire, police, and EMS in locating specific addresses.

The Swansea Fire Department is making these high visibility reflective address markers available through mail order. Please use the reverse side of this flyer for ordering. Installation instructions and mounting options will be included with your new sign. Installation assistance will be provided for those Swansea residents who require it.

Please make every effort to address any questions or concerns via email to: addressmarker@swanseafd.com. If you do not have email access leave a message at (508) 676-1950.

Submit check or money order payable to: Swansea Fire Co. 1 with order.
